Results of CNP Direct Certification

Changes to Results of CNP Direct Certification view

- ADE's CNP Direct Certification/Direct Verification system has been updated. Specifically, the match results now include additional data columns with program participation information. These new columns have been added to ensure LEAs can accurately report student eligibility information when it is required for the CNP Verification Summary Report. The new columns are SNAP, TANF, MA, and Foster. The DES Results column (Match or No Match) is still displayed. **LEAs must continue to utilize the DES Results column to determine if a student is Directly Certified**. Please note, students participating in more than one program will only be counted once in the total "Matches Found" section of the Results box. Please visit our website www.azed.gov/health-nutrition/nslp/programguidance/ to view Step-by-step Instruction for using the CNP Direct Certification system.

Report Results FAQ

Do I need to download my results or can I just print the webpage?

*Whichever method works better for the user. Upon request, the SFA must provide a copy of the original report and the date it was collected. **Please note: when downloaded, the top summary bar (including date report was run) is not included. ADE recommends noting the date within the file.***

Report Results FAQ

Q2. Would ADE accept my Direct Certification report if I copied the results of "Match and No Match" information onto an excel spreadsheet?

ADE will ask to see the original report created from the search. The SFA must keep the <u>original search results format</u> from the webpage or downloaded results. As long as the SFA has at least one copy in its original form, the SFA can copy the results into their own format.

Report Results FAQ

Q3. Why is the student show up more than once?

The may have been given multiple School Student IDs (i.e. transferred schools). The database will list ALL School Student IDs given to that student who has is only granted one SAIS ID. However, the DES result will be the same for all different School Student IDs.
